If you are visiting today, we are so glad you have come. Let us take the opportunity to welcome you after services. Thank you once again for being here! If you have any questions today or are in need of anything please let us be a service to you!

For the past several months many of us have been fighting off various viruses, and I'm hoping we're finally coming to the end of this bout of sickness as are many of you. But that's when it has caused me to reflect on the amazing way God has designed our bodies to combat these germs in the first place and many times throughout the year, with an immune system that can eliminate any intruder as soon as it penetrates. While germs and physical illness are our battle in the flesh, our spiritual enemy is warring in the Spirit — relentlessly seeking to penetrate our spiritual defense system! He is seeking a place in us to encourage sin so he can entrench himself there and begin to spread "spiritual disease" and death into our lives. Seeing how effectively God has designed our physical immune system, what can we learn in our spiritual battle to fight the good fight? The first lesson I see is "response time". As soon as that thought of jealousy, coveting, rebellion, lust, impurity, etc. enters our mind — we need to take notice! — and immediately take the thought captive, before it has an opportunity to grow and develop into spiritual illness. We go to great lengths to take care of our bodies physically, but how about spiritually? We need to start to recognize more often the spiritual warfare that is going on in us and around us. More and more the Lord is calling for us to stand up and fight the good fight of faith. So we must be READY.....and remain mentally and spiritually awake.

### Worship And Study Opportunities
