A very warm welcome to each and every one here today. We are so glad you have come our way especially those who are visiting. If you are visiting we welcome you here and would ask if you would remain after services a brief moment so we can introduce ourselves to you. Let's do everything in our part to worship God in spirit and in truth.

There are many times in the bible we find Jesus revealing himself as God. What's the significance of that? Who is Jesus? And Who is Jesus to you and me? We will all give an answer to that question one day. I dare say it is the most important question any of us will ever have to answer. Was He man and just a good man? Was He just a prophet? Was He a liar or just someone crazy? The teaching of Jesus as God is the heart of the Christian faith. If He is not, then why would we pray to Him or worship and serve Him as God. It is my pleasure each and every week just like when we remember the Lords supper to remind all of us who Jesus really is and what part he has in my life and ours to Him. Our study and text is found in John 5:1-5.

In Case You Missed It

Mount Pinatubo, a volcano dormant for over 500 years, began to erupt on June 12, 1991, and three days later exploded with twice the power of the 1980 Mount St. Helen’s eruption. The release of power blasted a cubic mile off the mountaintop and the earth shook for eight hours. The eruption produced an ash cloud that rose over 50,000 feet into the atmosphere. If that wasn’t enough, Typhoon Yunga then struck the island nation with fierce winds and torrential rains which mixed with the ash creating what the locals called “Black Saturday!” The United States was forced to abandon and eventually close Clark Air Force base, located just a few miles from there, due to the devastating blanket of fallen ash.

When a volcanologist was asked to account for the widespread damage which sent thousands of American soldiers and Filipinos fleeing, he replied, “When a volcano is silent for many years, people forget it’s a volcano and begin to treat it like a mountain. “ Now here’s a lesson for us from nature. We should always be aware of how our sinful nature has the potential to erupt. It would be a big mistake to ignore this possibility simple because it has lain dormant for a season. even a seemingly long one. Solomon writes a profound statement in his book of Proverbs, which, when paraphrased goes something like this; “ Can someone play with fire in his lap without incinerating his clothes?” The enemy of our souls would love for us to believe that we can somehow play with sin, without it negatively affecting our spirit and our walk with the Lord — oh how deceptive that is. Let’s be on guard! Sin is a dormant volcano which can erupt at ANY moment and set our house on fire. How do we prepare? First, by being aware of the possibility...then...; “Thy word have I hid in my heart that I might not sin against thee”. [Psalm 119:11] Let’s meditate upon His Word, allowing it to sink deep into our minds and our hearts, so that the only fire which burns there...is the fire of God’s Holy Spirit.
